

Divyanshu Tiwari

+91 9580244741 | divyanshutiwari1459@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Bareilly, Uttar Pradesh

Education

MJP Rohilkhand University, Bareilly, U.P.

Aug 2023 – May 2027

B.Tech in Computer Science & Information Technology (Current CGPA: 8.14)

Gyan Kunj Senior Secondary Academy, Ballia, U.P.

Apr 2020 – Apr 2022

Intermediate with PCM (Percentage: 95.8%)

Technical Skills

Languages: C++, Python, Java, SQL, JavaScript, TypeScript, HTML/CSS, R

Frameworks & Libraries: React.js, Node.js, Express.js, MongoDB, Tailwind, ShadCN, Pandas, NumPy, Matplotlib

Developer Tools: Git, Vercel, VS Code, Visual Studio, cPanel, Render

Experience

Codevirus Security | Full Stack Developer (Intern)

May 2026 – Present

- Mentored junior developers and implemented standardized code reviews, accelerating project delivery by 20%.
- Handled end-to-end deployments on cPanel for 4+ client websites, maintaining 99.9% uptime and cutting average deployment time by 25%.
- Refactored 500+ lines of legacy code and resolved 20+ critical bugs, reducing system crash rates by an estimated 30%.

Open Source Contributions

Open Source Developer | Target Orgs: AsyncAPI, Rocket.Chat

Jan 2026 – Present

- Resolved open-source issues by proposing and implementing technical solutions within the AsyncAPI and Rocket.Chat repositories.
- Analyzed repository architectures and collaborated with maintainers to draft project proposals for Google Summer of Code (GSoC) 2026.

Projects

Study Mitra | Python, Gradio, Whisper, yt-dlp

Dec 2025 – Jan 2026

Source Code: github.com/divyanshu-tiwari22/Study-Mitra

- Integrated the M2M100 Transformer to translate technical video transcripts into four regional languages.
- Built a Colab summarization pipeline to process long-form video transcripts, reducing average student review time by 60%.
- Sped up lecture processing using faster-whisper, accurately transcribing 1-hour videos in under 10 minutes with minimal server load.

CV Assessor | Python, Streamlit, PyPDF2, Llama 3.1-8B

Dec 2025

Live Demo: ai-resume-analyser-dgz8.onrender.com

- Built a real-time resume analyzer using Groq API and Llama 3.1-8B, delivering actionable career feedback in under three seconds.
- Scripted a PyPDF2 extraction pipeline to clean unformatted text from multi-page PDFs, achieving 95%+ accuracy on non-standard layouts.
- Developed a Streamlit dashboard, testing the upload pipeline against 30+ varied resume templates to ensure edge-case reliability.

bg.removal | React.js, Node.js, Express.js, Clerk

Jul 2025 – Aug 2025

Live Demo: bg-remover-three-theta.vercel.app

- Built a React and Node.js app that handles 5MB high-resolution uploads, stripping backgrounds in under five seconds via the Clipdrop API.
- Designed a drag-and-drop UI to minimize user friction during the upload, preview, and export pipeline.
- Implemented custom background replacements and color swaps using React state management to enable real-time image editing.

Achievements

- **Specialist @ Codeforces (1410 Max)**
- **2★ @ CodeChef (1486 Max)**
- **Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate**
- Attended SSB Interview Conference for Defence Services
- Represented MJP Rohilkhand University in North Zone Basketball Championship
